## Commodore – Gary Farrell

The first late meeting of the summer! Member meetings start at 5:00 p.m. and will remain that way until September. Please make sure that you mark your calendar! The weather was cool and the members came out in good numbers with quite a few guests to enjoy a great afternoon and a wonderful steak dinner. Thanks to everyone who came!

We have acquired a trash service for the club. The service will only take the clubs trash. Make sure that you secure all trash bags and place in outside container. They will not accept torn bags and will not pick up trash from the grounds.

A BIG THANK YOU to Jerry Rice who has, on his own time and expense, taken the trash to the landfill for this club for many years.

## Vice Commodore – Jerry Rice

Gas grills need to be cleaned after use and the gas turned off at the tank. If you are last person in club, even if you are out boating, please turn off the hot water heater under the sink and lock up the clubhouse. Please check newsletter to see what month you are on the work schedule. Thank you.

## Rear Commodore – Ron Cheek

Looking for volunteers to help with cutting the hydrilla and mooring replacement. Seems that Carolyn Betz had a keen eye on the river a couple of weekends ago....she asked Chevy if the boat on the mooring had an extra long line because it appeared to be changing location.....Heck no.....it had escaped and was floating

upstream!!!! Jerry Rice and Jim Betz jumped into action to save the day!!!!!! Thanks for the great vision and quick reaction!!!!!!

## JUST FOR FUN!

A blonde, new to boating, was having a problem. No matter how hard she tried, she just couldn't get her brand new 22-ft boat to perform.

It wouldn't get on plane at all and it was very sluggish in almost every maneuver, no matter how much power she applied. After about an hour of trying to make it go, she putted over to a nearby marina. Maybe they could tell her what was wrong.

A thorough topside check revealed everything was in perfect working order. The engine ran fine, the outdrive went up and down, the prop was the correct size and pitch. So, one of the marina guys jumped in the water to check underneath.

He came up choking on water, he was laughing so hard. Under the boat, still strapped securely in place..... was the trailer!!!
