Each member has been assigned a month to work. You may choose when you put your time in during the month. Please log your work hours in the workbook kept at the clubhouse. Each member is asked to work 10 hours during the year. Slipholders are required to work 15 hours per year. Additional hours can be added by the board if needed. Additional scheduled work days will appear in the monthly newsletter.

Note: Work hours are actual work put in for the clubs benefit by the club member(s). If you use the club for your personal use, please remember to leave it as nice as you found it. It will not be counted as a work hour in the log book. Please see list of items needing attention that will be posted on the bulletin board.

There are four members that are not listed to work: Cruse, Dixon, Homrighausen and Fleming. These members may volunteer at any time they choose.

Please see Chevy Rice with any questions.
